

From Jurgen Habermas
and Oskar Negt to in
fact Sloterdijk – and
even Christian Church
Life – what is a complex
sphere and public
sphere in fact – a
Category of Experiences
or Structures – joining
Louis Althusser into this
process –

I. My Company
therefore – after all
the complex world
is then in fact a

number of spheres –
cultural, economic,
public spheres,
bourgeois,
proletarian, rural,
towns and even
types of rural, wine
ideas, shop private
sphere and even the
totality of what I
was calling my
discourse capturing
different aspects of
series, and indirect
gatherings and such
dialectical

totalisation but now
as a category in fact

–

So in fact the world is a
bricolage – Sloterdijk
says with a T.J. Clarke
covering art and
impressions more and
more these days.

II. My Company
therefore is free to
do its lifestyle which
keys into it

How does my company
work then and what
further to do – how do I
help Communism and
parties and the Left – is
this just in fact
American Idealism at
last – a legal interest in
the world and company
work – I can tell a
number of aspects to
fine living at last for the
left – and relaxing hotel
life with black people
joining us – just that
claims – on a list to be a

beautiful idealism –
welcome then to work
life with my company,
Bill Gates, Kevin Plank,
and Joe Clement – it is
like a simple golf joke –
just the keying in of the
company as a theme
then is what runs its
variations – I call that
the film in fact Malleck
wise of how true
American Idealism is in
fact.
